Marketing & Image Permissions

MARKETING & IMAGE PERMISSIONS
Version 1 - 15 October 2026

1. Filming your booked experience

Filming is part of the service you book. This is separate from permission for Studio Football to use identifiable footage in its own advertising. Refusing marketing permission does not affect your booking.

2. Optional image and footage permission

The relevant participation or media form contains the optional marketing choice. For a child, it must be given by a parent or another person with parental responsibility. A team representative cannot give individual marketing permission for children. We do not use a general booking enquiry as image permission.

3. Marketing messages

Permission to receive promotional emails or messages is a separate opt-in. Booking, signing a participation form or agreeing to image use does not automatically subscribe you. Each marketing message offers a way to opt out.

4. Withdrawing permission

Email play@studiofootball.co.uk to withdraw permission, identifying the participant or booking and what you want to withdraw. We stop future uses under that permission and remove content from the website and social channels we control within 30 days. We cannot guarantee removal of copies already shared by others. Permission records are retained for the period explained in the Privacy Notice.

5. Children and livestreams

No livestream is offered for sessions involving children. An adult livestream requires separate agreed arrangements and permissions; a recording-delivery link is different from a livestream link.

6. Where to complete the choice

Use the participation or media form linked to your booking through the Waivers & Legal page. This information page does not collect or grant permission. The Customer Terms, Privacy Notice and the relevant form explain the arrangements in full.
